PROFESSIONAL EXPERIENCE

Areisto (Front-end vue.js)   **Oct 2024– Dec 2024**

⇨ We contributed to the Opportunity Pioneers project.
⇨ The project supports the work of Kfarlancer, but what sets us apart is the inclusion of supporters and the reduction of liquidity.
⇨ We focused on ensuring the availability of electricity and internet access for students in the Gaza Strip.

link (Front-end jQuery)   **Oct 2024– Dec 2024**

⇨ We contributed to the dalilStaio project to Kuwait.
⇨ It is a dashboard designed to connect customers with employers.
⇨ In this project, I successfully worked under intense pressure.
⇨ I had the opportunity to work directly with the server and manage it.

TrustAngle (Front-end jQuery & vue.js)   **Sept 2023 – Nov 2023**

⇨ I developed a landing page on Jigsaw, as well as multiple pages on Lynnc, trello, and sanam.
⇨ This page shows the services that Jigsaw offers such as food ordering, Dine in and much more.
⇨ Implemented the jQuery library to streamline code, reduce duplication, and enhance code maintainability.
⇨ Handle the change of client requirements and follow up with them to apply their changes.
⇨ Designed the Lynnc platform to address various challenges within the food ordering and delivery industry, ensuring orders are delivered to specified locations seamlessly.
⇨ The trello and sanam projects were implemented using Vue.js technology.
⇨ The API was handled directly in the trello project, where requests were successfully sent and responses.
⇨ The Dropdown feature has been developed in the trello project in a professional manner, with attractive and elaborate designs.
⇨ sanam Project is a landing page dedicated to displaying camels, their products and elements, and was developed for the Saudi Camel Club.
⇨ Dynamic Components were used professionally in the sanam project
