PROFESSIONAL SUMMARY

Frontend Developer with 4+ years of experience building fast and scalable web apps using React.js and Next.js. I focus on writing clean, reusable code and delivering smooth user experiences. I've worked on projects in fintech, eSIM, travel, and charity — with some experience in Ionic for mobile development.

PROFESSIONAL EXPERIENCE

Frontend Developer · Speed

Nov 2025 – Feb 2026

Stack: React.js, Next.js, Tailwind CSS, REST APIs

- Built a centralized API layer that kept exchange rates, transfer methods, and payment options consistent across the whole platform.
- Created an admin dashboard that lets non-technical staff update financial settings on their own — no developer needed.
- Developed an investment platform with clear navigation that made it easier for new users to get started.

Frontend Developer · Mystic Beam Dev

March 2026 – Present

Stack: HTML5, Tailwind CSS, Ionic, Angular, REST APIs

- Built several web platforms from scratch: an eSIM platform with bundle browsing and checkout, a messaging system, and travel portals for destinations like Pakistan and Zambia.
- Added full Arabic and English support with RTL/LTR switching across all projects.
- Developed a mobile app using Ionic and Angular that runs on both iOS and Android from a single codebase.
- Kept UIs fast and responsive across all screen sizes using Tailwind CSS.

Frontend Developer · Fadda Tech

Oct 2024 – Oct 2025

Stack: Vue.js, Nuxt.js, Tailwind CSS

- Built the Rise Marketing Platform using Nuxt.js with server-side rendering, which improved SEO and load speed.
- Worked with the team across all stages — from wireframes to final deployment
- Kept the codebase clean and easy to scale by following component reuse and code review practices..

Web Developer (Freelance) · Ibrahim Website

Sep 2025 – Oct 2025

Stack: HTML5, CSS3, Tailwind CSS

- Built a multilingual platform for violin learners with a CMS so admins can manage content easily.
- Added a course system with progress tracking and smooth animations to improve the learning experience.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3

Frameworks & Libraries: React.js, Next.js, Vue.js, Nuxt.js, Ionic (Angular)

Styling: Tailwind CSS, Bootstrap, Responsive Design, RTL/LTR Support

State Management: Redux, Pinia, Vuex

Tools & Workflow: Git, GitHub, GitLab, Trello, REST APIs, Postman

Performance: Lighthouse Optimization, Code Splitting, Lazy Loading

Languages Spoken: Arabic (Native), English (Professional)

EDUCATION

Diploma in Software Engineering & Databases

Sep 2021 – Oct 2023

[Al-Azhar University](#)

- Covered software development lifecycles, relational databases, OOP principles, and applied programming projects.
